CONSENT FOR ACCESS TO PROPERTY

Owner Name: Gloria B. Lewis Phone Home: 293-9844
Location of Property: 576 Reese Court #34 Work: _____
Mailing Address: P.O. Box 1568 Cell: 293-0843
Libby, MT 59923
Relationship to Property (owner, tenant, etc.): Tenant

I, the undersigned, am the owner, their representative, or otherwise control the real property at the location described above. The Environmental Protection Agency has requested entry and access to my property pursuant to its response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA or Superfund) as amended, 42 U.S.C. 9601 et seq.

I consent to officers, employees, authorized representatives, and authorized contractors of the EPA entering and having continued access to the above referenced property for the following purposes:

1. Conducting field inspections and investigations of the property and structures on the property in support of removal activity planning;
2. Taking samples of air, soil, dust and/or bulk samples on the property;
3. Performing construction set-up (i.e. fencing, containment, equipment) to support the removal of contaminated material;
4. Using minimal amounts of heat, water (city sources only), and electricity without reimbursement while conducting investigation, removal and/or restoration activities;
5. Taking response actions, including, but not limited to: site stabilization, marking or temporarily covering exposed vernictdite, removal of hazardous materials and substances;
6. Completing restoration efforts once contaminated material has been removed to include repair of possible damage or property loss as a proven direct result of removal and restoration activities; and
7. Other such actions as the EPA Remedial Project Manager determines may be necessary to protect human health and the environment.

If relocation is necessary, I realize that I may not have access to my property during removal activities for health and safety reasons. Only in the event of an emergency will I be able to request items from my property.

This written permission is given by me voluntarily with knowledge of my right to refuse and without threats or promises of any kind. I certify that this Consent for Access is entered into voluntarily and constitutes an unconditional consent and grant of permission for access to the property by officers, employees, representatives and authorized contractors of the EPA at reasonable times.

Signature: Gloria B. Lewis Date: 10-6-11
Subject to #6 on enclosed letter #8

For office use only.

City of Libby, Lincoln County, State of Montana, EPA

RE: Air, land and water pollution

To all of the above:

1. Last winter in a phone conversation with the City Administrator asking for help to get snow removed at the end of my driveway, I was informed that the City could not come on private property for fear of a lawsuit. However, on August 25, 2011 the City Sweeper came down this same private driveway several times (this being the same private driveway the City and their contractor used to dump waste from the Cabinet Heights Subdivision on private property) creating huge clouds of hazardous and toxic dust and then dumped the contents in my next door neighbor's private parking area. I immediately called City Hall on the same day with a complaint and also took pictures which were sent to Mr Hammons and the EPA. The next day on August 26, 2011 the City Sweeper again came down this private driveway creating a huge cloud of hazardous toxic dust and again dumping the contents in my neighbor's private parking area.
2. In a phone conversation with the City Administrator on September 16, 2011; I was told the city allowed the sweeper to come on private property and dump since it saved the City the cost of hauling the waste from the sweeper. A for-profit-scheme further endangering the health of tenants and others for many years to come due to pollution of air, land, and water.
3. Prior to 2010, in 2008 and 2009, City Officials and all others involved including their contractor made a deal with Fred S. Thompson, owner of The View Trailer Court, to dump all the waste from the Cabinet Heights Sewer Project in his private commercial trailer court located within the City limits, in a mutual for-profit-scheme, endangering the health of the tenants and others, for many years to come, due to pollution to air, land, and water.
4. Prior to 2010 local EPA Officials in violation of their own City, County, State, OSHA laws, rules, regulations, ordinances and evidently for part of the for-profit-scheme; endangering the health of the tenants and others for many years to come by allowing the pollution of air, land, and water.
5. This does not absolve the Fred S. Thompson Estate inherited by his wife, Manuel J Thompson and as personal representative, and Dell Goss her appointed manager from responsibility in endangering the health of the tenants and others, for many years to come, due to pollution of air, land, and water, nor does it absolve the City, County, State, and EPA from responsibility in endangering the health of the tenants and others, for many years to come, due to pollution of air, land, and water.
6. Due to all of the above and due to the fact that I became very ill (which the local Doctors were unable or unwilling to diagnose) starting in November 2009 and twice again in 2010 and again in April 2011, I am requesting and requiring that the EPA test the above
